SAMEER MAHARANA

+91 7387979150 | **Sameermaharana1319@gmail.com** | **PORTFOLIO** | **GITHUB** | **LINKEDIN**

SKILLS

Programming Languages: C++, JavaScript
Web Development Languages: Html, Css, Tailwind css, React.js, Node.js, Redux
Tools: Vs code, GitHub, Figma, Framer motion, ChatGPT

EXPERIENCE

Freelance projects   Mar 2023 - Feb 2025

Tech Stack: Html, Css, Javascript, Bootstrap, Php, Mysql, Word, Github, Vscode, Chatgpt

- **Worked as a frontend developer for 2 years**, creating user-friendly websites using **HTML, CSS, JavaScript, Bootstrap, PHP, and MySQL**.
- **Handled over 20+ student projects** from different states across India, mainly helping final-year students with their academic websites.
- **Designed and modified the entire front-end interface**, while my partner managed the backend and database parts.
- **Also created professional project reports in MS Word**, using ChatGPT to write clear and well-structured content.

PROJECTS

Apple | Live link   stack: Html, Css, Js, Tailwindcss, React.js, Framer-motion,Gsap.   **Github: Live link**
- Developed a realistic iPhone landing page using React and Tailwind CSS, focused on modern UI/UX and clean, responsive design.
- Integrated advanced 3D scrolling animations and section transitions, creating an interactive and immersive user experience as users scroll through features.
- Showcased iPhone in a high-fidelity, visually appealing layout, optimized for all screen sizes and deployed on Vercel for smooth, fast performance.

Vyom | Live link stack: Tailwindcss, React.js, Framer-motion, node.js, express, mongodb.
Github: Live link
- Built a responsive UI for Vyom using React and Tailwind, optimizing product views for earrings, chains, bangles, and more.
- Collaborated with backend developers, integrating APIs and user authentication while ensuring a smooth and dynamic frontend experience using Clerk and Razorpay.
- Designed reusable components, interactive product cards, and category pages, focusing on performance, accessibility, responsiveness, and clean user experience across all devices.

RideWithMe | Live link stack: Js, Tailwindcss, React.js, Framer-motion,Gsap.   **Github: Live link**
- Developed a solo travel website for exploring Bhubaneswar, enabling user interaction, trip planning, and streamlined city exploration workflows.
- Integrated a custom budget tracker to calculate trip costs dynamically, including food, travel, group size, and auto-sharing via WhatsApp.
- Implemented secure authentication using Clerk, built responsive UI with React and Tailwind, and ensured smooth navigation through scroll-based section linking.

EDUCATION

Yashwantrao Chavan university, Nashik
Graduation   BCA - 2024
